

V1

T4 *Color* RGB LIGHTING MAST

Power 4,5 W

T4 Color

The T4 range now includes an **RGB head** to light up small stages, gardens and plunge your guests into colourful atmospheres.

- Completely **autonomous**, its integrated Lithium-ion battery offers up to 110h of autonomy (values vary according to intensity).
- Thanks to its integrated DMX-HF system, **adjust the light colour and intensity from a distance** via a remote control or a DMX console.
- The mast's head module includes 4 individually adjustable spot lights and with the **HermaTwist®** wireless assembly system, the T4 Color can now be switched easily from **straight to inclined**.

1 4 RGB spotlights **2** Remote-controlled **3** Straight or inclined **4** Integrated battery

Rotation 360° individually adjustable

Integrated DMX-HF

Installation in 45 seconds
